Its average print run is 50 000 copies and according to our readership survey (University of Tampere, 2007), we have 110 000 readers. SixDegrees has around 500 distribution points, more than half of which are situated in the greater Helsinki area. The rest are mainly located in Tampere, Turku, Jyväskylä and Oulu, but SixDegrees is also available in 17 other towns in Finland.

Double issues are displayed for two months

The SixDegrees double issues are published on 30 June and 3 December, and are displayed for two months. The summer double issue is displayed during July and August, and reaches tourists effectively. The winter double issue is displayed during December and January, providing excellent advertising exposure for Christmas and the January sales season. The print run for a double issue is bigger and our advertisers reach consumers twice as long, but the advertising rates remain the same!

Advertising banners on our website

The SixDegrees website www.6d.fi is a dynamic forum. We offer advertising space on the website at reasonable rates.

Yearly agreements and frequency discounts

Advertisers who sign up for a one-year agreement are given a considerable frequency discount and a free banner on the SixDegrees website. We can also negotiate a substantial frequency discount for a prominent series of adverts over a shorter period.
